A well-planned 90-day strategy can help you revise the syllabus systematically without feeling overwhelmed. For aspirants preparing with the **best CDS coaching in Kerala**, combining structured guidance with disciplined self-study can make the final three months much more productive.

CDS 2027 Last 3 Months Study Plan

Divide the final 90 days into three phases:

Month 1: Syllabus Consolidation

The first month should focus on revising major concepts and completing any important portions that are still pending.

English

- Revise grammar rules
- Practise error spotting and sentence improvement
- Revise synonyms, antonyms, and idioms
- Practise comprehension and para jumbles
- Solve topic-wise PYQs

General Knowledge

- Revise History, Geography, and Polity
- Strengthen Science fundamentals
- Revise Economy and Defence-related topics
- Start systematic current affairs revision

Mathematics

- Revise important formulas
- Practise Arithmetic, Algebra, and Geometry
- Revise Trigonometry and Mensuration
- Solve topic-wise PYQs

The goal should be to **consolidate what you have already studied rather than continuously adding new resources**.

Month 2: Intensive Practice and PYQs

During the second month, increase your focus on questions and examination practice.

Follow the:

Revise → Practise → Analyse

approach.

Solve CDS previous year papers and sectional tests regularly. After every test, identify:

- Questions you got wrong
- Questions that took too much time
- Topics you forgot
- Repeated mistakes
- Areas requiring additional revision

Maintain an **error notebook** and revise it every few days.

Subject-Wise Focus

English: Daily vocabulary + grammar revision + PYQs

GK: Static GK + current affairs + topic-wise MCQs

Mathematics: Formula revision + timed problem-solving + PYQs

By the end of the second month, you should have a clear understanding of your **strong and weak areas**.

Month 3: Final Revision and Mock Tests

The final month should be focused mainly on **exam-oriented preparation**.

Increase the frequency of full-length mock tests and practise under examination conditions.

Focus on:

- Full-length mock tests
- Previous year papers
- Weak topics
- Important formulas
- Vocabulary
- Static GK facts
- Current affairs
- Mistake notebook

During the **last 10-15 days**, avoid taking on large amounts of completely new material. Concentrate on revision, practice, and confidence-building.

How to Revise CDS 2027 Effectively

1. Use Short Notes

Don't repeatedly read entire textbooks. Prepare concise notes containing:

- Important facts
- Formulas
- Grammar rules
- Vocabulary
- Important dates
- Polity facts
- Current affairs
- Frequently repeated PYQ concepts

2. Follow Multiple Revision Cycles

Instead of studying a topic once, revise it several times.

A simple approach is:

First Revision → After 7 Days → After 15 Days → Final Revision

This makes information easier to recall during the examination.

3. Give More Time to Weak Areas

Don't spend all your revision time on subjects you already know well.

Use mock-test performance to identify your weak areas and dedicate additional time to them.

4. Practise With a Timer

CDS preparation is not only about knowing the answer. You must be able to solve questions **quickly and accurately**.

Timed practice helps improve:

- Speed
- Accuracy
- Question selection
- Time management
- Exam confidence

Suggested Daily Routine for the Last 3 Months

A 6-hour focused schedule could be:

Activity	Time
English	1 hour
GK & Current Affairs	1.5 hours
Mathematics	1.5 hours
PYQs/Practice	1 hour
Revision/Error Analysis	1 hour

OTA aspirants can use the Mathematics slot for additional English, GK, and mock-test practice.

CDS Mock Test Strategy

Don't take mock tests simply to increase your test count.

After every test, analyse:

Score → Wrong Answers → Time Taken → Weak Topics → Corrective Revision

Maintain a record of your mock scores and try to improve gradually.

A mock test should answer three questions:

1. **What do I know?**
2. **What am I getting wrong?**
3. **What is preventing me from scoring higher?**

Common Mistakes During the Last 3 Months

Avoid:

- Starting several new books
- Ignoring previous year papers
- Taking mock tests without analysing them
- Studying only favourite subjects
- Leaving current affairs for the final week
- Memorising without revision
- Spending too much time on difficult questions
- Comparing your scores with other aspirants
- Sacrificing sleep for unnecessary study hours
