

# GEOGRAPHY FOR PRELIMS 2026: MAPS, LOCATIONS & PHYSICAL FEATURES

Geography is one of the **most scoring and elimination-friendly subjects** in the UPSC Civil Services Preliminary Examination. In recent years, UPSC has increasingly focused on **map-based questions, physical features, and location-based current affairs**, making Geography a **decisive section for Prelims 2026**.

For **UPSC Prelims 2026**, aspirants must develop strong command over **Indian and World maps, physical geography concepts, and location-based news**. This article provides **comprehensive, Prelims-ready notes on Maps, Locations, and Physical Features**, along with a smart preparation strategy, common mistakes, and FAQs.

## Why Geography is Important for UPSC Prelims 2026

- Consistent presence of **10-15 questions** in Prelims
- High proportion of **map-based and factual questions**
- Strong overlap with **Environment, Economy & Current Affairs**
- Helps in easy elimination of options

☐☐ *Geography rewards visual memory and repeated map practice.*

## PART I: MAP WORK - THE GAME CHANGER FOR PRELIMS 2026

### 1. Importance of Map-Based Questions

UPSC increasingly asks:

- Identification of places in news
- Location of rivers, mountains, straits, seas
- Countries, borders, and strategic locations

Map-based questions often fetch **sure-shot marks** if practiced well.

### 2. Indian Map - Must-Know Areas

## **(a) Physiographic Divisions of India**

- Himalayan ranges (Trans, Greater, Lesser, Shiwalik)
- Northern Plains
- Peninsular Plateau
- Indian Desert (Thar)
- Coastal Plains
- Islands (Andaman & Nicobar, Lakshadweep)

## **(b) Rivers of India**

Focus on:

- Himalayan rivers: Indus, Ganga, Brahmaputra
- Peninsular rivers: Godavari, Krishna, Cauvery, Narmada, Tapi
- Tributaries and river systems
- River-origin, course, and drainage pattern

☐☐ UPSC often asks **match-the-following** from rivers.

## **(c) Mountains, Passes & Plateaus**

- Major mountain ranges and passes
- Western & Eastern Ghats
- Deccan Plateau, Malwa Plateau, Chota Nagpur Plateau

## **(d) Indian Lakes, Wetlands & Deltas**

- Natural vs artificial lakes
- Important wetlands (Ramsar sites)

- Major river deltas and estuaries

## **PART II: WORLD MAPS & INTERNATIONAL LOCATIONS**

### **3. World Map - High-Scoring Areas**

#### **(a) Continents & Physiographic Features**

- Major mountain ranges: Andes, Rockies, Alps, Atlas, Ural
- Deserts: Sahara, Kalahari, Gobi, Atacama
- Plateaus: Tibetan, Brazilian, African Plateau

#### **(b) Oceans, Seas & Straits**

Highly important for Prelims.

- Important seas: Mediterranean, Black Sea, Red Sea
- Straits: Hormuz, Malacca, Bab-el-Mandeb, Bosphorus, Dardanelles
- Gulfs & bays

☐☐ Frequently linked with **international relations and trade routes**.

#### **(c) Important Rivers & Lakes of the World**

- Nile, Amazon, Mississippi, Yangtze, Danube
- Major freshwater lakes

## **PART III: PHYSICAL GEOGRAPHY - CORE CONCEPTS**

### **4. Geomorphology (Landforms)**

- Endogenic vs exogenic forces
- Plate tectonics
- Earthquakes & volcanoes

- Folding and faulting

## 5. Climatology

- Atmosphere and its layers
- Heat budget
- Pressure belts and winds
- Monsoon system in India
- El Niño, La Niña, Indian Ocean Dipole (IOD)

## 6. Oceanography

- Ocean currents (warm & cold)
- Upwelling and downwelling
- Tides and waves
- Coral reefs and marine features

# **PART IV: LOCATION-BASED CURRENT AFFAIRS (PRELIMS GOLD)**

## 7. Places in News

UPSC regularly asks from locations in news due to:

- Conflicts
- Natural disasters
- Infrastructure projects
- Environmental significance

Prepare:

- Border regions

- Strategic islands
- National parks and reserves in news

## Smart Strategy to Prepare Geography for Prelims 2026

1. Practice **map work daily** (India + World)
2. Integrate static geography with **current affairs**
3. Revise physical geography concepts regularly
4. Use atlases and online map tools
5. Solve previous year questions (PYQs)

## Common Mistakes to Avoid

- Ignoring map practice
- Studying Geography without visuals
- Memorising facts without location context
- Skipping revision of physical geography

## Conclusion

Geography for UPSC Prelims 2026 is **highly scoring if prepared visually and strategically**. Regular map practice, clarity in physical geography concepts, and integration with current affairs can significantly boost your Prelims score. Aspirants who treat maps as daily practice tools will always stay ahead in this subject.

## Frequently Asked Questions (FAQs)

### Q1. How many Geography questions are asked in UPSC Prelims?

Usually 10–15 questions every year.

## **Q2. Are map-based questions really important?**

Yes. Map-based questions are increasing and are easy to score.

## **Q3. Should I study World Geography for Prelims?**

Yes. World maps and international locations are frequently asked.

## **Q4. Is Physical Geography important for Prelims?**

Yes. Many questions are concept-based from physical geography.

## **Q5. Is Geography useful for other stages of UPSC?**

Absolutely. It overlaps with GS Paper I and Environment sections.
