

India-Japan Joint Vision for the Next Decade (2025)

India and Japan adopted a **10-year vision (2025-2035)** to strengthen their **Special Strategic and Global Partnership**. The goal is to ensure a **free, open, peaceful, and prosperous Indo-Pacific**, support economic growth, and deepen people-to-people ties.

They agreed on **Eight Key Directions**:

1. Next Generation Economic Partnership

- Target of **JPY 10 trillion (₹5.5 lakh crore approx.)** Japanese private investment in India.
- Review of **India-Japan CEPA** to boost trade.
- Support for **Make in India** through industrial cooperation.
- SME collaboration and an **India-Japan SME Forum**.
- Partnership in **food security and agri-business**.
- ICT and financial cooperation, including **local currency trade**.
- Expansion of India-Japan cooperation in **Africa & Global South** (MAHASAGAR + Japan's Indian Ocean-Africa Initiative).

2. Next Generation Economic Security Partnership

- **Resilient supply chains** in semiconductors, critical minerals, pharma, telecom, and clean energy.
- Joint work under **Digital Partnership 2.0** and **Semiconductor Cooperation MoUs**.
- **AI collaboration** (Japan-India AI Initiative).
- **Battery supply chain cooperation**.

3. Next Generation Mobility

- **High-speed rail** cooperation (seismic-proof, AI-based monitoring).
- **Smart cities, metros, highways, and green transport**.

- Cold-chain logistics for food & pharma.
- Joint automobile, aircraft, and shipbuilding projects.
- Disaster risk reduction through resilient infrastructure.

4. Next Generation Ecological Legacies

- Achieve **net-zero** goals through clean energy partnerships.
- **Circular economy**: waste-to-energy, recycling, green hydrogen.
- Cooperation in **forests, agriculture, and marine ecosystems**.
- Mission LiFE (sustainable lifestyle) support.
- Joint work in multilateral forums (LeadIT, JCM).

5. Next Gen Technology & Innovation Partnership

- **Quantum, HPC, and frontier sciences** collaboration.
- **Start-up collaboration** under Japan-India Startup Support Initiative (JISSI).
- **India-Japan Fund of Funds** for start-ups.
- **ICT and space cooperation** (LUPEX lunar mission).
- Research in **fission, fusion, and modular reactors**.
- Joint work in **food tech and millets (AI-ENGAGE initiative)**.

6. Investing in Next Gen Health

- Strengthen **Ayushman Bharat-Asia Health & Wellbeing Initiative** linkages.
 - Research on **stem cell therapy, regenerative medicine, cancer, gene therapy**.
 - Joint work on **digital health and automated diagnostics**.
 - Promotion of **AYUSH (yoga, Ayurveda, holistic medicine)** in Japan.
 - Fellowship and exchange programs for doctors.
-

7. Next Gen People-to-People Partnership

- Exchange of **5 lakh people** in the next 5 years, including **50,000 skilled Indians to Japan**.
- Expansion of **vocational training & Japanese Endowed Courses**.
- **India-Japan Talent Bridge (IJTB)** to promote jobs and internships.
- Exchange programs: **Sakura Science, LOTUS, HOPE Meetings**.
- Greater **student, researcher, tourist, and cultural exchanges**.
- Boost **Japanese language training** in India (NIHONGO Partners program).

8. Next Gen State-Prefecture Partnership

- New **sister-city and state-prefecture partnerships**.
- Direct flights between more Indian & Japanese cities.
- **India-Kansai Business Forum** and cooperation with Kyushu region.
- Regular **delegations between Indian states & Japanese prefectures** (3 visits per year).
