

Victor Growth Admission Procedure

Victor Growth - Performance-Linked Learning System

At **Victor Growth**, we believe that **success in competitive exams** is not achieved through shortcuts — but through **discipline, consistency, and measurable progress**.

Our **Performance-Linked Learning Model** is designed to ensure that every student advances **only through merit**. Each month must be **earned** — by meeting academic and attendance benchmarks.

This model keeps students **motivated, accountable, and exam-ready**, while assuring parents that their investment directly reflects performance.

How It Works — Step by Step

Step 1 - Admission Assessment Test (₹500)

Objective: Identify student's present level and readiness.

- The **Admission Assessment Test** consists of **basic concept-based and simple questions** drawn from **all subjects in the exam syllabus** (Mathematics, English, General Studies, etc.).
- This test helps us evaluate fundamental understanding and learning aptitude.

□ **Benchmark:** Minimum **50% score** to qualify for admission.

□□ **Outcome:**

- **≥ 50%:** Eligible for the **10-Day Foundation Program**.
- **< 50%:** Guided feedback will be given; candidates can **re-attempt** the test in the next cycle.

Step 2 - Foundation Classes (₹2500 | 2 Weeks)

Objective: Build strong conceptual grounding and exam-oriented learning habits.

- The **Foundation Program** focuses on explaining the **fundamentals of all subjects**, helping students build a **strong base** for advanced learning.
- Classes cover **basic theories, conceptual clarity, and structured study techniques**.

- Daily practice and short quizzes ensure students learn how to apply fundamentals to real exam questions.

□ **Benchmark:** $\geq 50\%$ in the **Foundation Exit Test**.

□□ **Outcome:**

- $\geq 50\%$: Promoted to the **Main Course**.
- $< 50\%$: Can **re-attend the next Foundation batch** after guidance and preparation.

Step 3 - Main Course (Monthly Performance-Linked Learning Cycle)

Objective: Develop mastery, problem-solving skill, and exam-ready confidence.

In the Main Course, each subject is covered **in depth as per the complete exam syllabus** through:

- **Detailed concept teaching**
- **Previous Year Question (PYQ) analysis**
- **Practice tests and topic-wise drills**
- **Revision sessions and monthly progress reports**

At the end of every month, students face a **Performance Test** designed exactly like the actual competitive exam.

□ **Benchmark:** Minimum **50% marks** required to qualify for the next month's course.

□□ **Outcome:**

- $\geq 50\%$: Eligible for the **next month's classes**.
- $< 50\%$: Must **re-attempt** the test before continuing.

Step 4 - Attendance Rule

Objective: Maintain discipline and regularity in preparation.

- A minimum of **90% attendance** is mandatory each month.
- Attendance includes classroom sessions, tests, and academic workshops.

□ **Benchmark: $\geq 90\%$ attendance** each month.

□□ **Outcome:**

Students who fail to meet this criterion will not be allowed to progress, even if they have scored 50% or above in tests.

Step 5 - Monthly Fee Collection (Pay Only After You Qualify)

Objective: Ensure performance-based progress and parental assurance.

- Fees are collected **only on a monthly basis**.
- Parents pay **only when the student qualifies** for the next month — i.e., by securing **$\geq 50\%$ marks and $\geq 90\%$ attendance**.
- This system guarantees **accountability and fairness**, ensuring every student earns their next month's learning opportunity.

□□ Summary of the Learning Journey

Stage	Duration	Evaluation	Criteria to Progress
Admission Assessment	1 Day	Basic concept questions from all subjects	$\geq 50\%$
Foundation Course	2 Weeks	Concept clarity & practice test	$\geq 50\%$
Main Course (Monthly)	Ongoing	Monthly performance test + attendance	$\geq 50\%$ marks & $\geq 90\%$ attendance
Fee Payment	Monthly	Linked with qualifying result	Pay only if eligible

□□ Why Students & Parents Trust This Model

- Transparent — Progress and fees depend on performance.
- Structured — Every step builds toward exam success.
- Accountable — Students stay focused; parents stay informed.
- Motivating — Each month is a new milestone earned through merit.
- Effective — Regular testing, PYQs, and revision ensure exam readiness.

□□ Join the Victor Growth System

Begin your journey with the **Admission Assessment (₹500)**.

Clear $\geq 50\%$, attend the **10-Day Foundation**, and step into a system where **performance decides progress** — not promises.

□□ *Victor Growth - Building Competence through Discipline, Month after Month.*

□□ Why Choose Victor Growth's Performance-Linked System

- Transparent & Fair – Progress and fees tied to results.
- Structured Learning – Foundation to mastery with clear milestones.
- Motivating & Accountable – Students earn their next month by proving readiness.
- Exam-Focused – Continuous testing and PYQ practice ensure real preparation.
- Parent-Friendly – You pay only for measurable progress.

□□ Be a Part of the Victor Growth Journey

If you are **willing to take part in this journey of Performance-Linked Learning**, please **follow the procedure for admission** – **Register for the Admission Assessment Test (₹500)** and begin your path toward disciplined, result-oriented success.

Step 1: Fill the Registration Form □□ <https://forms.gle/71MjgL7HhQKVp61Q6>

Ensure all details are correct, including your address with pincode for study material delivery.

Step 2: Complete the fee payment of Rs. 500 only via:
QR Code / UPI ID: 9995916183@sbi
